1. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 7-8, "e.g. in a about a horizontal axis" is unclear. The use of "e.g." or "for example" is indefinite because it is not clear if the particular example is a required element of the claimed invention.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Hudis (USPN 3,664,448).

Hudis shows a vehicle with an undercarriage 21 having forwardmost and hindmost protruding parts 24, and front and rear traction belts 32 mounted under the protruding parts. Each belt is movable vertically and is pivotable about a transverse pivot axis 35 for vertical movement.

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Crane (USPN 4,977,971).

Crane shows a vehicle with an undercarriage 12 having forwardmost and hindmost protruding parts 16, and front and rear traction belts 14 mounted under the protruding parts. Each belt is movable vertically and is pivotable about a transverse pivot axis 39 for vertical movement.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Haringer, Blocher, and Parent show vehicles with front and rear pivotable tracks.
